Cocoon duct occluder for transcatheter closure of large patent ductus arteriosus: A follow-up
Santosh Kumar Sinha et al.; Uttar Pradesh-India

Comparison of warfarin use in terms of efficacy and safety in two different outpatient clinics
Salih Kılıç et al.; İzmir-Turkey

Metformin continuation prior to coronary angiography and renal functions
Veyesel Oktay et al.; İstanbul-Turkey

Aortic propagation velocity and classical aortic stiffness parameters in healthy individuals
Hatem Arı et al.; Isparta-Turkey

Association of female gender and heart rate with increased arterial stiffness in type 2 diabetes
Min-Kyung Kang et al.; Seoul-South Korea

Tp-e interval, Tp-e/QT ratio and Tp-e/QTc ratio in mitral stenosis before and after valvuloplasty
Muhammet Dural et al.; Eskişehir-Turkey

The dynamic thiol/disulphide homeostasis as a indicator of oxidative stress in obese children
Bahri Elmas et al.; Sakarya-Turkey
AIMS AND SCOPE

The Anatolian Journal of Cardiology is an international monthly periodical on cardiology published on independent, unbiased, double-blinded and peer-review principles. The journal’s publication language is English however titles of articles, abstracts and Keywords are also published in Turkish on the journal’s web site.

The Anatolian Journal of Cardiology aims to publish qualified and original clinical, experimental and basic research on cardiology at the international level. The journal’s scope also covers editorial comments, reviews of innovations in medical education and practice, case reports, original images, scientific letters, educational articles, letters to the editor, articles on publication ethics, diagnostic puzzles, and issues in social cardiology.

The target readership includes academic members, specialists, residents, and general practitioners working in the fields of adult cardiology, pediatric cardiology, cardiovascular surgery and internal medicine.

The editorial and publication processes of the journal are conducted in accordance with the guidelines of the International Committee of Medical Journal Editors (ICMJE), the World Association of Medical Editors (WAME), the Council of Science Editors (CSE), the European Association of Science Editors (EASE), the Committee on Publication Ethics (COPE) and the HEART Group.

The Anatolian Journal of Cardiology is indexed in Science Citation Index Expanded, PubMed/MEDLINE, EMBASE, Scopus, EMCare, CINAHL, Gale/ Cengage Learning, EBSCO, DOAJ, ProQuest, Index Copernicus and TÜBİTAK ULAKBİM TR Index.

The requirements for submission of manuscripts and detailed information about the evaluation process are available in the published journal and also as ‘Instructions for Authors’ on the web site (http://www.anatoljcardiol.com).

Statements and opinions expressed in the Anatolian Journal of Cardiology reflect the views of the author(s). All liability for the advertisements rests with the appropriate organization(s). The Turkish Society of Cardiology, the editor-in-chief and KARE PUBLISHING do not accept any responsibility for these articles and advertisements.

Subscriptions
The Anatolian Journal of Cardiology is printed on acid-free paper. Applications for subscriptions should be made to the Editorial Office. The abstracts and full texts of published articles can be accessed free of charge at http://www.anatoljcardiol.com.

Financial support and advertising
The revenue of the Anatolian Journal of Cardiology is derived from subscription charges and advertisements. Institutions wishing to place an advertisement in the printed version of the journal or on the web page should contact KARE PUBLISHING.

INSTRUCTIONS FOR AUTHORS

The Anatolian Journal of Cardiology® is published in accordance with the principles of independent, unbiased, and double-blinded peer review. It publishes original research related to clinical, experimental, and basic sciences on cardiology, editorial comments, reviews covering current issues, articles, scientific letters, case reports, letters to the editor, original images, articles on history of medicine and publication ethics, diagnostic puzzles, and interviews deemed appropriate for the purposes and scope of the journal.

The journal evaluates only the manuscripts submitted through its online submission system on the web site http://www.anatolijcardiol.com. Manuscripts sent by other means will not be accepted.

The primary conditions for the acceptance of manuscripts for publication are originality, scientific value and citation potential.

STATEMENTS AND GUIDELINES

Statements
• All statements and opinions expressed in the manuscripts published in the Anatolian Journal of Cardiology reflect the views of the author(s). All liability for the advertisements rests with the appropriate organization(s). The Turkish Society of Cardiology, the Editor-in-Chief and KARE do not accept any responsibility for articles and advertisements.
• The manuscripts submitted to the journal, except abstracts, presentations, reviews and parts of theses, should not have been accepted and published previously elsewhere in electronic or printed format. Manuscripts evaluated and rejected by other journals must mention any previous submissions and supply reviewer’s reports. This will help to accelerate the evaluation process. If the submitted manuscript has been previously presented at a meeting, the name, date, city and country must be specified.
• The authors transfer all copyrights of the manuscript in the framework of national and international regulations to the Turkish Society of Cardiology. An Copyright Transfer Form signed by corresponding author in order must be submitted to the journal with manuscript. After acceptance of manuscript, all of authors must fill and sign Copyright Transfer form. A separate form for each manuscript should be submitted. Manuscripts submitted without a Copyright Transfer Form will not be accepted. In the case of rejection, all copyrights transfer to the authors again. Authors must confirm that they will not submit the work to another journal, publish it in the original or another language and or allow a third party to use the manuscript without the written permission of the Turkish Society of Cardiology.
• All contents are the authors’ responsibility. All financial liability and legal responsibility associated with the copyright of submitted tables, figures and other visual materials protected by national and international laws rest with the authors. The authors take responsibility for any legal proceedings issued against the journal.
• Rejected manuscripts will not be returned except for artwork.
• To clarify scientific contributions and responsibilities and any conflict of interest issues relevant to the manuscript, all parts of the ‘Authors’ Contribution’ form must be completed by the corresponding author and the ‘ICMJE Uniform Disclosure Form for Potential Conflicts of Interest’ must be completed online by all authors. Both forms should be included in the manuscript at the time of original submission.

Guidelines
• The format of the manuscripts must be in accordance with the ICMJE Recommendations for the Conduct, Reporting, Editing and Publication of Scholarly Work in Medical Journals (updated in December 2014: http://www.icmje.org/icmje-recommendations.pdf).
• The presentation of the manuscripts must be in accordance with international guidelines. CONSORT should be used for randomized trials, STROBE for observational studies, STARD for diagnostic studies, PRISMA for systematic reviews and meta-analyses, ARRIVE for animal studies, and TREND for non-randomized behavior and public health studies.

Ethics
• All manuscripts will be vetted by the Editor-in-Chief’s Office for possible plagiarism and duplication. Sanctions will be imposed in accordance with the guidelines of the Committee on Publication Ethics (COPE) and with the principles of the HEART Group when non-ethical issues arise. The authors must obtain the permission of the copyright holder for non-original tables, figures, graphs, images and other visuals.
• The authors should acknowledge and provide detailed information on any contributions in kind and financial support given by any foundations, institutions and firms.
• An ethics committee report prepared in conformity with the IVMRA Declaration of Helsinki - Ethical Principles for Medical Research Involving Human Subjects and the Guide for the Care and Use of Laboratory Animals is required to be submitted with experimental and clinical studies, drug trial studies and some case reports. Authors may be asked by the Editor-in-Chief’s Office for an ethics committee report or similar in other circumstances also. Manuscripts reporting the results of experimental studies must explain in detail all procedures which volunteer subjects and patients have undergone and a statement indicating that consent for the study has been obtained from all subjects should be included in the text. Animal studies should clearly specify how pain or discomfort has been relieved.

PREPARATION AND SUBMISSION OF MANUSCRIPTS

Manuscript files should be prepared with Microsoft Office Word. The online submission system will direct authors during all stages of submission and provide necessary support for accelerating the submission process. A list of the files that should be supplied through the online submission system is provided below.

A-VIII

1. Title Page
2. Main Text
3. Tables, Graphs and Figures
4. Copyright Transfer Form
5. Author Contribution Form
6. ICMJE Uniform Disclosure Form for Potential Conflicts of Interest

1. Title Page
Information about the authors and their institutions should not be included in the main text; tables, figures and video documents. Since submitted manuscripts are evaluated by the reviewers through the online system, personal identification is excluded in the interests of unbiased interpretation. Thus, only information about the manuscript as specified below should be included on the title page. For each type of manuscript, it is mandatory to upload a title page as a separate Microsoft Word document through the online submission system. The title page should include the names of the authors with their latest academic degrees, and the name of the department and institution, city and country where the study was conducted. If the study was conducted in several institutions, the affiliation of each author must be specified with symbols. The correspondence address should contain the full name of the corresponding author, postal and e-mail addresses, phone and fax numbers. If the content of the manuscript has been presented before, the name, date and place of the meeting must be noted. Disclosure of conflict of interest, institutional and financial support, author contributions and acknowledgments should be included on the title page.

2. Main Text
The manuscripts submitted to our journal are classified and evaluated according to the manuscript types stated below. During preliminary evaluation, the editors assess whether a manuscript’s format and sub-headings are prepared in accordance with the journal’s guidelines. Therefore, it is important that authors check the accuracy of the main text in terms of the following.

A. Manuscript types
• Original investigation
• Editorial comment
• Review
• Education
• Scientific letter
• Case report
• Original image
• Letter to the editor
• Publication ethics
• Scientific puzzle
• Miscellaneous articles
B. References
C. Special Terms and Conditions

A. Manuscript types
• Original Research
  • Structured Abstract: It should be structured with Objective, Methods, Results and Conclusion subheadings and should be limited to 250 words.
  • Keywords: This section should contain a minimum of three and a maximum of six items in accordance with Medical Subject Headings (MeSH) terms prepared by the National Library of Medicine (NLM) and should be placed just below the abstract.
  • Main Text: It should consist of Introduction, Methods, Results, Discussion, Limitations of the Study and Conclusion sections and should not exceed 5000 words excluding the references.
  • References: The reference list should be provided following the Main Text. Limiting the number of references to 50 is usually sufficient.
  • Tables, Figures and Images: They should be placed below the reference list number and numbered according to their consecutive order in the main text.
  • Title, Structured Abstract and Keywords should also be provided in Turkish for manuscripts submitted by Turkish authors or from Turkey. However, translations of these sections for manuscripts submitted by foreign authors outside Turkey will be the responsibility of the publisher.

Statistical Analysis: Statistical analysis should be conducted in accordance with the guidelines on reporting statistical data in medical journals (Altman DG, Gore SM, Gardner MJ, Pocock SJ. Statistical guidelines for contributors to medical journals. Br Med J 1983; 7: 147-53). Statistical reporting for articles published in clinical medical journals: the SAMPL Guidelines. In: Smart P, Maisonneuve H, Polderman A (editors). Science Editors’ Handbook, European Association of Science Editors, 2013.). The software used for statistical analysis must be described. Data must be expressed as mean ± standard deviation when parametric tests are used to compare continuous variables. For nonparametric tests, data must be expressed as median (minimum-maximum) or percentiles (25th and 75th percentiles). In advanced and complex statistical analyses, relative risk (RR), odds ratio (OR) and hazard ratio (HR) must be supported by confidence intervals and p values. The outcomes of statistical analyses and interpretation of the results must be in evidence-based scientific language (Editors of Heart Group journals. Statement on matching language to the type of evidence used in describing outcomes data. Anatolian Journal of Cardiology 2012;12(7):09).
EDITORIAL

- Scientific competition, impact factor, and Altmetrics
  Adnan Abacı; Ankara-Turkey

INVITED EDITORIAL

- Medicine and cardiology can have a high innovative potential in Turkey
  Ayhan Olcay, Serdar B. Albayrak, Erdem Tezcan, Vedat Öztürk; İstanbul-Turkey

ORIGINAL INVESTIGATIONS

- Protection by nitrite against the ischemic effects induced by acute myocardial infarction in mice
  Yafei Wang, Xin Song, Xia Yue, Hong Su, Yuanyang Gu, Linda Bowman, Min Ding, Baobo Zou, Jinhun Zhao, Xialu Lin; Ningbo, Morgantown, Xi’an-People’s Republic of China

- Prospective evaluation of the feasibility, safety, and efficacy of Cocoon Duct Occluder for transcatheter closure of large patent ductus arteriosus: A single-center study with short- and medium-term follow-up results
  Santosh Kumar Sinha, Mahmudula Razi, Rama Niwas Pandey; Prakash Kumar; Vinay Krishna, Mukesh Jitendra Jha, Vikas Mishra, Mohammad Asif, Nasar Abdali, Pradyot Tewari, Ramesh Thakur, Umeshwar Pandey, Chandra Mohan Varma; Uttar Pradesh-India

- Comparison of Warfarin use in terms of efficacy and safety in two different polyclinics
  Salih Kılıç, Hatice Soner Kemal, Elif İlkay Yüce, Evrim Şimşek, Burcu Yağmur, Nuray Memişoğlu Akgül, Cahide Soydaş Çınar, Mehdi Zoghi, Cemil Gürgün; Gaziantep, İzmir-Turkey, Nicosia-Cyprus

- Impact of continuation of metformin prior to elective coronary angiography on acute contrast nephropathy in patients with normal or mildly impaired renal functions
  Veysel Oktay, İlknur Calpar Çıralı, Umit Yaşar Sinan, Ahmet Yildiz, Murat Kazım Ersanlı; İstanbul-Turkey

- Aortic propagation velocity does not correlate with classical aortic stiffness parameters in healthy individuals
  Hatem Arı, Fatih Kahraman, Yasin Türker, Serdar Güler, Hasan Aydin Baş, Doğan Erdoğan; Isparta-Turkey

- Association of female sex and heart rate with increased arterial stiffness in patients with type 2 diabetes mellitus
  Min-Kyung Kang, Jae Myung Yu, Kwang Jin Chun, Jaehuk Choi, Seonghoon Choi, Namho Lee, Jung Rae Cho; Seoul-South Korea

- Evaluation of Tp-e interval, Tp-e/QT ratio, and Tp-e/QTc ratio in patients with mitral valve stenosis before and after balloon valvuloplasty
  Muhammet Dural, Kadir Uğur Mert, Kemal İskenderov; Eskişehir-Turkey

- Dynamic thiol/disulfide homeostasis as a novel indicator of oxidative stress in obese children and its relationship with inflammatory-cardiovascular markers
  Bahri Elmas, Mehmet Karacan, Pınar Dervişoğlu, Mustafa Kösecik, Şükriye Pınar İşgüven, Ceylan Bal; Sakarya, İstanbul, Ankara-Turkey

CASE REPORT

- Endovascular coil treatment of a coronary artery aneurysm related to polyarteritis nodosa
  Özgür Bayturan, Serdar Tarhan, Özge Çöpkıran, Fatih Düzgün, Uğur Kemal Tezcan; Manisa-Turkey
